VISCOWAX® P51G can be used in many different applications. Please contact us to get more information about the special properties of our product and the potential use / advantage in your application.

Main scope of applications and effects:

- Carrier material and dispersing aid in pigment and additive concentrations / Masterbatches
- Lubricant for PVC processing
- Processing agent for PP
- Additive for hot melt adhesives
Status under Food Legislation

EU: Listed in Annex I of Regulation (EU) 10/2011

For further information please contact us under the below mentioned address.

Safety and Environment

VISCOWAX® P51G has not been classified as hazardous materials in accordance with the Regulation (EC) No. 1272/2008 (CLP/GHS) and therefore it does not require marking.

Please refer to our Safety Data Sheet for further safety relevant information.

Form of Delivery, Packaging and Storage

VISCOWAX® P51G is shipped as granules either in multilayer paper bags or PE bags of 25 kg net. The product is palletised (preferably 750 kg net) on CP2-pallets (1200mm x 800mm) which are shrink-wrapped.

Big bags of different sizes up to 1000kg net palletised on CP3-pallets (1140mm x 1140mm) are also available.

The product shall be stored in its original packaging at room temperature in a dry place. Avoid direct sun radiation and water contact.

Please do not hesitate to contact us for further details.
