* general supply specification
DGF: Test methods of the Deutsche Gesellschaft für Fettwissenschaft e.V. Münster i.W.

Main Scope of Application

- **Plastic processing**
  - Lubricant for PVC-processing

- **Paraffin compounding, candle industry**
  - Increase on drop point
  - Improvement of release effect and surface gloss

Applications as water-based Emulsions:

- **Textile Industry**
  - Plasticizer component
  - Improvement of cross-linking properties, tear resistance and smoothing of fabrics
  - Slip agent for sewing threads

- **Leather processing**
  - Additive for synthetic resin dispersion used for finishing, fulling and smoothing of upper leather

- **Water-based varnishes**
  - As hydrophobing agent

- **Water-based polishes, e.g.**
  - Floor, shoe, furniture polishes
Status under Food Legislation

EU:
Listed in Annex I of Regulation (EU) 10/2011 (Ref. No: 80077, SML = 60 mg/kg)

Safety and Environment

VISCOWAX® 261 has not been classified as hazardous materials in accordance with the Regulation (EC) No. 1272/2008 (CLP/GHS) and therefore it does not require marking. The product does not contain heavy metals. It is insoluble in water and has no harmful effect on fish and bacteria. Disposal of the product is to be carried out in accordance with the local regulations.
Please refer to the Safety Material Data Sheet for further safety-relevant information.

Form of Delivery, Packaging and Storage

VISCOWAX® 261 is shipped palletised (preferably 750 kg each) and shrink-wrapped as dust-free powder in PE sacks of 25 kg each. Shipment in big bags of different sizes is possible upon request. The product shall be stored in its original packaging at room temperature in a dry place. It must not be stored together with amines. Avoid direct sun radiation and water contact.

Please do not hesitate to contact us for further details.
